

**\$177,300.00 GRANT
BUILDING EXTENSIONS COMMENCING SOON!**

Towradgi SLSC received \$177,300.00 from the NSW State Government Funding, allocated for the Surf Club Facility Development Program on September 30, 2008.

A DA Application was approved from WCC to extend the current Surf Club building with two additional structures. One for Member Development & Training and to increase member participation in Surf Lifesaving activities and the other, to house rescue equipment and trailers securely from the harsh coastal elements.

I am pleased to announce the building plans have already started and we'll soon have our extensions completed.
We thank WCC for allowing our self-funded project to commence.

Keep checking our website for updates and photographs.

Cheers
Adriana.
